PROFILE

AI-enabled digital, research and content professional with an MEng Chemical Engineering background and hands-on experience applying generative AI to research, content creation, document development, marketing, presentations, websites and repeatable workflows. Combines prompt engineering and multi-tool AI workflows with scientific research discipline, technical editing, advanced Excel, creative production and strong critical evaluation. Comfortable moving between analytical, written, visual and operational tasks and learning new digital platforms quickly.

AI, DIGITAL & CREATIVE CAPABILITIES

- **Generative AI:** ChatGPT; Claude; Gemini; NotebookLM; Microsoft Copilot; Meta AI; DALL-E / image generation.
- **AI Workflows:** Prompt engineering; repeatable prompt templates; custom AI projects and structured AI workflows; AI-assisted research; document workflows; multi-tool workflows; content ideation and refinement; output evaluation.
- **Creative / Content:** Canva; Adobe Photoshop; Lightroom; Filmora AI; social media; advertising; brochures; presentations; branding/logos; photography; videography; drone/aerial content; reels; marketing copy and campaigns.
- **Web / Coding:** GoDaddy; Canva web design; AI-assisted HTML and coding; Python; GitHub; website content and maintenance.
- **Data / Productivity:** Advanced Excel: formulas, XLOOKUP/VLOOKUP, PivotTables, dashboards, charts, Power Query, macros/VBA, data cleaning; Microsoft 365; Google Workspace; Teams; Zoom; Slack; Dropbox; OneDrive.
- **Media Equipment:** Mirrorless cameras; drones; GoPro/action/underwater cameras; photography, aerial imaging and video capture/editing workflows.

RELEVANT EXPERIENCE

Business Setup & Marketing Consultant – Digital / Media Focus

Apr 2025 – Present

Cresco Consulting FZCO | UAE

- Coordinate marketing and media projects from concept through delivery, creating social posts, advertisements, brochures, presentations, brand assets, photography, video/reels and marketing copy.
- Apply ChatGPT, Claude, Gemini, NotebookLM, Copilot, Meta AI and image-generation tools across research, ideation, drafting, visual development, refinement and productivity workflows.
- Develop and maintain elements of Cresco's website using Canva and GoDaddy, including AI-assisted HTML/coding and content development.
- Develop repeatable prompts, custom AI projects and multi-tool workflows to support research, document creation, content production and business tasks.
- Use Canva, Adobe/Photoshop/Lightroom and Filmora AI for visual, photo and video workflows.

OTHER EXPERIENCE

Stewardess / Deckhand / Engineer Assistant / Operations

May 2023 – Apr 2025

Research Vessel ROSA | USA & Bahamas

- Produced photography, video and drone content of the vessel for sales and promotional purposes, combining visual storytelling with commercial presentation.
- Designed and customised user-friendly fuel reports, presenting operational data in clear, accessible and interactive formats.
- Created guest-facing information documents, activity materials and regular updates, translating operational information into engaging, easy-to-understand content.
- Documented guest trips through photography, video and other creative media, producing personalised visual content and trip memories.
- Combined guest communication and creative content development with technical documentation and operational support.

Academic Journal Editor

Nov 2022 – Apr 2023

CACTUS Communications | Remote

- Reviewed scientific manuscripts for language, technical clarity, structure, consistency and journal compliance, strengthening skills directly relevant to AI-output evaluation and quality assurance.
- Performed targeted subject research, checked terminology and managed multiple complex assignments independently under deadlines.

Process & R&D Engineer

Mar 2021 – Jul 2022

Free Radical Process Design (FRPD) | South Africa

- Managed client-focused technical investigations and transformed experimental/analytical data into clear recommendations, reports, process documentation and engineering decisions.
- Worked across multidisciplinary problems requiring hypothesis-driven analysis, structured troubleshooting and critical evaluation of evidence.

Postgraduate R&D Engineer / Researcher

Jan 2020 – Dec 2021

University of Pretoria | South Africa

- Designed experiments, validated and interpreted data, developed kinetic models and synthesised complex technical evidence into publishable scientific outputs.
- Used Python and advanced Excel for research and data analysis, and supervised undergraduate vacation-work research assistants by communicating objectives, delegating experimental tasks, reviewing work and providing technical guidance.

Brand Promoter / Event Staff

Jan 2017 – Sep 2023

Matriarch Marketing & JR Promotions | South Africa

Part-time / Event-based

- Represented consumer brands through product demonstrations, customer engagement, promotional campaigns, events, trade shows and experiential marketing activities.

ADDITIONAL DIGITAL & ANALYTICAL STRENGTHS

- **AI-assisted analytical work:** Combines domain expertise, research evaluation, technical editing and data validation with AI tools to critically assess and refine outputs.
- Advanced Excel user with formal IFZA training and extensive application in postgraduate research and operations; also supports peers with Excel use.
- **Cross-format digital communication:** Experience transforming technical, operational and commercial information into clear, user-focused outputs across reports, documents, presentations, websites, photography, video and visual content.

EDUCATION

MEng Chemical Engineering

University of Pretoria, South Africa | 2021

- Published research in Clays and Clay Minerals; postgraduate research bursary; dissertation focused on nitric-acid leaching kinetics of phlogopite and solid-residue characterisation.

BEngHons Chemical Engineering (Distinction)

University of Pretoria, South Africa | 2020

- Recipient of Academic Honorary Colours.

BEng Chemical Engineering

University of Pretoria, South Africa | 2019

- Environmental Engineering specialisation including water/effluent treatment, bioreactors, air pollution, waste remediation and environmental regulation.
