PROFILE

Chemical Engineer (MEng) with multidisciplinary experience spanning process R&D, scientific communication, project and operational coordination, marine operations, and AI-enabled digital work. Combines experimental design and data interpretation with project coordination, advanced Excel, technical communication and practical problem-solving. Experienced in supervising, mentoring and training others, coordinating resources and suppliers, managing documentation and delivering work across technical, educational, operational and commercial environments.

CORE CAPABILITIES

Engineering & research: hydrometallurgy, electrochemistry, mine-water and tailings-water treatment, experimental design, mass and energy balances, PFDs/P&IDs, analytical interpretation and technical reporting.

Digital & communication: AI research and document workflows, reusable prompts, custom GPTs/projects, AI-assisted web development, scientific editing, branding, photography and video.

Operations & leadership: project coordination, planning and scheduling; procurement and inventory; vendor coordination; documentation; staff supervision, training and task delegation; cross-functional operational support.

PROFESSIONAL EXPERIENCE

Business Setup & Marketing Consultant

Apr 2025 – Present

Cresco Consulting FZCO | Dubai, UAE

- Create and manage website content using Canva, GoDaddy and AI-assisted coding, and coordinate branding, marketing and media projects from concept through delivery.
- Produce social posts, advertisements, brochures, presentations, photography, video, reels and marketing copy.
- Apply knowledge gained through IFZA training and exposure to colleagues' UAE free-zone business-setup, licensing, documentation and compliance workflows.

Operations, Hospitality & Project Coordination

May 2023 – Apr 2025

Research Vessel Rosa | United States & Bahamas

- Initially joined as a day worker before being offered a permanent crew position, working primarily as Yacht Stewardess alongside deck and engineering support responsibilities.
- Coordinated inventory, provisioning, procurement, suppliers/vendors, documentation and day-to-day operational requirements in a fast-moving private-vessel environment.
- Trained and supervised new crew/dayworkers, delegated tasks and supported schedules while maintaining high service, presentation, safety and operational standards.
- Supported vessel maintenance, technical documentation and practical troubleshooting across engines, plumbing, IT, pumps, water-making and other marine systems.

Academic Journal Editor

Nov 2022 – Apr 2023

Cactus Communications | Remote

- Edited scientific manuscripts, particularly chemical engineering and technical research, for language, structure, terminology, consistency and journal compliance.
- Provided constructive author feedback and managed multiple assignments under deadlines.

Process & R&D Engineer

Mar 2021 – Jul 2022

Free Radical Process Design (FRPD) | South Africa

- Supported laboratory and pilot-scale hydrometallurgical, electrochemical and water-treatment process development.
- Coordinated experimental activities, laboratory resources and client project objectives across multiple technical projects.
- Prepared mass and energy balances, flow diagrams, process descriptions, design bases, equipment specifications and technical reports.
- Reviewed supplier quotations.
- Project exposure included cobalt electrowinning, manganese beneficiation, gold recovery, zinc removal and tailings-water treatment.

ADDITIONAL PROFESSIONAL & RESEARCH EXPERIENCE

Postgraduate R&D Engineer / Master's Research

Jan 2020 – Dec 2021

University of Pretoria | South Africa

- Planned and executed research on nitric acid leaching of phlogopite and characterisation of solid residues; developed kinetic models and interpreted analytical results.
- Used XRF, XRD, ATR-FTIR, BET, TGA and electron microscopy, with Excel and Python for data processing.
- Supervised and mentored undergraduate vacation-work research assistants, communicating project objectives, delegating experimental tasks, reviewing completed work and reports, and providing technical guidance and feedback.
- Research published in *Clays and Clay Minerals*.

Teaching Assistant, Part-time

Feb 2019 – Jun 2021

University of Pretoria | South Africa

- Tutoring, laboratory preparation, student supervision, assessment and feedback across chemical engineering subjects.

Online English Language Consultant / Tutor

Sep 2020 – Mar 2021

MPC Connect | South Africa

- Teaching English to foreign language speakers of all ages, nationalities, and proficiency levels.
- Structured remote lessons, review of learner submissions and constructive feedback.

Laboratory Intern

Dec 2017 – Jan 2019

University of Pretoria | South Africa

- Twelve weeks of part-time/vacation laboratory work on mineral leaching and fertiliser production, including experimental planning and analytical work.

EDUCATION & SELECTED PROJECTS

Master of Engineering (MEng), Chemical Engineering | University of Pretoria | 2021

Research: phlogopite leaching kinetics and solid-residue characterisation.

BEngHons Chemical Engineering (Distinction) | University of Pretoria | 2020

Academic honorary colours

BEng Chemical Engineering | University of Pretoria | 2019

Academic projects included a membrane-based portable water-purification concept, packed-bed reactor design, selective precipitation from leach liquor and environmental engineering studies.

TOOLS & DIGITAL PRACTICE

- **Advanced Excel:** formulas, XLOOKUP/VLOOKUP, PivotTables, dashboards, charts, Power Query, VBA/macros and data cleaning.
- **Engineering & productivity:** Python, Aspen Plus/HYSYS, Visio, SolidWorks, GitHub, Microsoft 365, Google Workspace, Teams, Zoom, Slack, Dropbox and OneDrive.
- **AI & creative:** ChatGPT, Claude, Gemini, NotebookLM, Copilot, Meta AI, DALL·E/image generation, Canva, Adobe and Filmora AI. Hands-on use of mirrorless cameras, GoPro/action cameras and drones; photography and video editing.
- **Laboratory:** ICP-OES, XRF, XRD, ATR-FTIR, BET, TGA-DTG, FEG-SEM/SEM-EDS, particle size analysis, pH analysis, electrochemical test systems

SELECTED TRAINING & PROFESSIONAL DEVELOPMENT

- Operations Management Professional Certificate · Jack Welch Management Institute, LinkedIn Learning · In progress, started September 2026
- Project Management – Energy and Water Projects — PMI & LinkedIn Learning, Feb 2026
- AI for Project Management: Managing Risk with Generative AI — NASBA & LinkedIn Learning, Feb 2026
- ChatGPT Prompt Engineering for Developers — DeepLearning.AI, Feb 2026
- Occupational Safety and Health: Hazard Communication — LinkedIn Learning, Feb 2026
- IFZA partner training: business licences, customer acquisition, Excel, finance fundamentals and Power Pitch, 2025
- Approved Engine Course (AEC 1), 2024 · STCW training, 2023
- Python Mega Course: Developing Apps and AI Agents — Udemy (In Progress)

LANGUAGES

- English (Native) | Afrikaans (Proficient) | Hebrew (Basic)
